

True or False

Concept

Is each fact right?

Name: _____

Date: _____

Think: Work out the left side. Does it really equal the right side?

1. Circle True or False. Reason it out — you don't always need to calculate!

1) $11 - 4 = 6$ True / False

2) $9 - 8 = 11$ True / False

3) $6 + 7 = 11$ True / False

4) $3 + 10 = 13$ True / False

5) $7 - 5 = 12$ True / False

6) $5 \times 3 = 15$ True / False

7) $6 \times 3 = 17$ True / False

8) $9 \times 12 = 107$ True / False

9) $2 + 6 = 7$ True / False

10) $7 - 3 = 2$ True / False
