

True or False

Practice — ANSWER KEY

Compare the two sides by reasoning.

Think: Swapping the order of a sum keeps it equal — but subtraction does NOT.

1. Circle True or False. Reason it out — you don't always need to calculate!

1) $48 - 5 = 51 - 8$ **True** / False

2) $27 + 10 = 29 + 9$ True / **False**

3) $48 - 9 = 53 - 15$ True / **False**

4) $38 + 14 = 14 + 39$ True / **False**

5) $41 + 12 = 43 + 11$ True / **False**

6) $37 + 5 = 5 + 37$ **True** / False

7) $35 + 10 = 37 + 8$ **True** / False

8) $45 + 11 = 47 + 10$ True / **False**

9) $43 + 3 = 3 + 44$ True / **False**

10) $21 - 13 = 22 - 15$ True / **False**
